Allan Jones Construction Ltd Environmental Policy Statement of Intent

Aims, Commitments and Management Practices

This Environmental Policy Statement for AJC's own activities is supported by a series of specific objectives and principles which apply to all the Allan Jones Construction Ltd operations and functions and are integral to its culture and management practices.

Allan Jones Construction Ltd will organise its own activities to reflect best environmental practice, adopt plans and environmental management techniques to pursue sustainability and continual improvement, and will seek innovative ways of meeting environmental objectives.

Environmental Principles and Objectives of Allan Jones Construction Ltd

Legal Compliance

To meet, and where appropriate, exceed all relevant UK, EC and international regulatory and legislative requirements and agreements.

Continual Improvement

To review all of its activities and operations in order to identify, understand and evaluate all of its direct and indirect environmental effects arising there from, and prioritise action to address them; to prevent, or where not practicable, minimise releases of polluting substances to the environment.

Recycling

To promote recycling and the reuse of materials

Waste Disposal

To dispose of waste in a way which minimises adverse effects on the environment?

Energy

To minimise energy consumption and use it as effectively and efficiently as possible, to support the use of energy from sustainable renewable sources, and to develop procedures for energy use consistent with best practice.

Environmental Protection and Enhancement

To undertake action, functions and investments consistent with environmental protection and enhancement, taking into account likely costs and benefits when appropriate.

Asbestos

The Company is committed to complying with the Control of Asbestos Regulations 2006 and in so complying to know by way of a type 2 asbestos survey of all asbestos containing materials within the premises occupied by the Practice and to either remove or manage that asbestos in place. Any asbestos register would be provided to all contractors or other personnel working on the buildings. The register is available to all employees of the company.

Aims and Commitments

In managing the consequential impacts of its own activities, the Company is wholly committed to implementing and demonstrating best environmental practice. Allan Jones Construction Ltd created this environmental policy to address the environmental impacts of its own activities in line with the Government Management Statement.

In particular, in all its functional activities, Allan Jones Construction Ltd is committed to:

- Implementing integrated environmental management, achieving the highest environmental standards and demonstrating best environmental practice.
- Achieving environmental protection and enhancement through an integrated and co-ordinated approach.
- Improving continuously its own environmental performance through the setting of clear objectives and monitoring their attainment.
- Seeking and promoting innovative ways in achieving its own environmental objectives.
- Promoting environmental awareness and management skills throughout the AJC Company
- Training all staff to deliver their environmental management responsibilities.
- Introducing an assurance system to monitor its internal environmental management, which is intended to be independently verified.

In carrying out these activities Allan Jones Construction Ltd has the principle aim of contributing to the achievement of sustainable development.
